

DIY a Graphene Cooling System for DevTerm

1

A

Graphene sheet
80*45*0.07mm

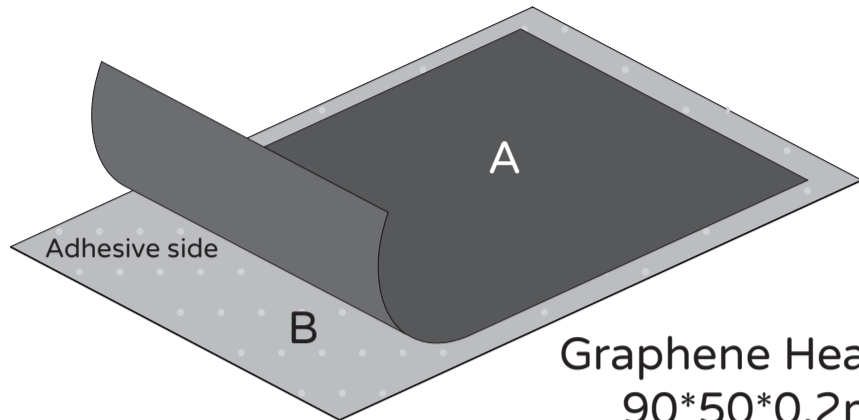

+

=

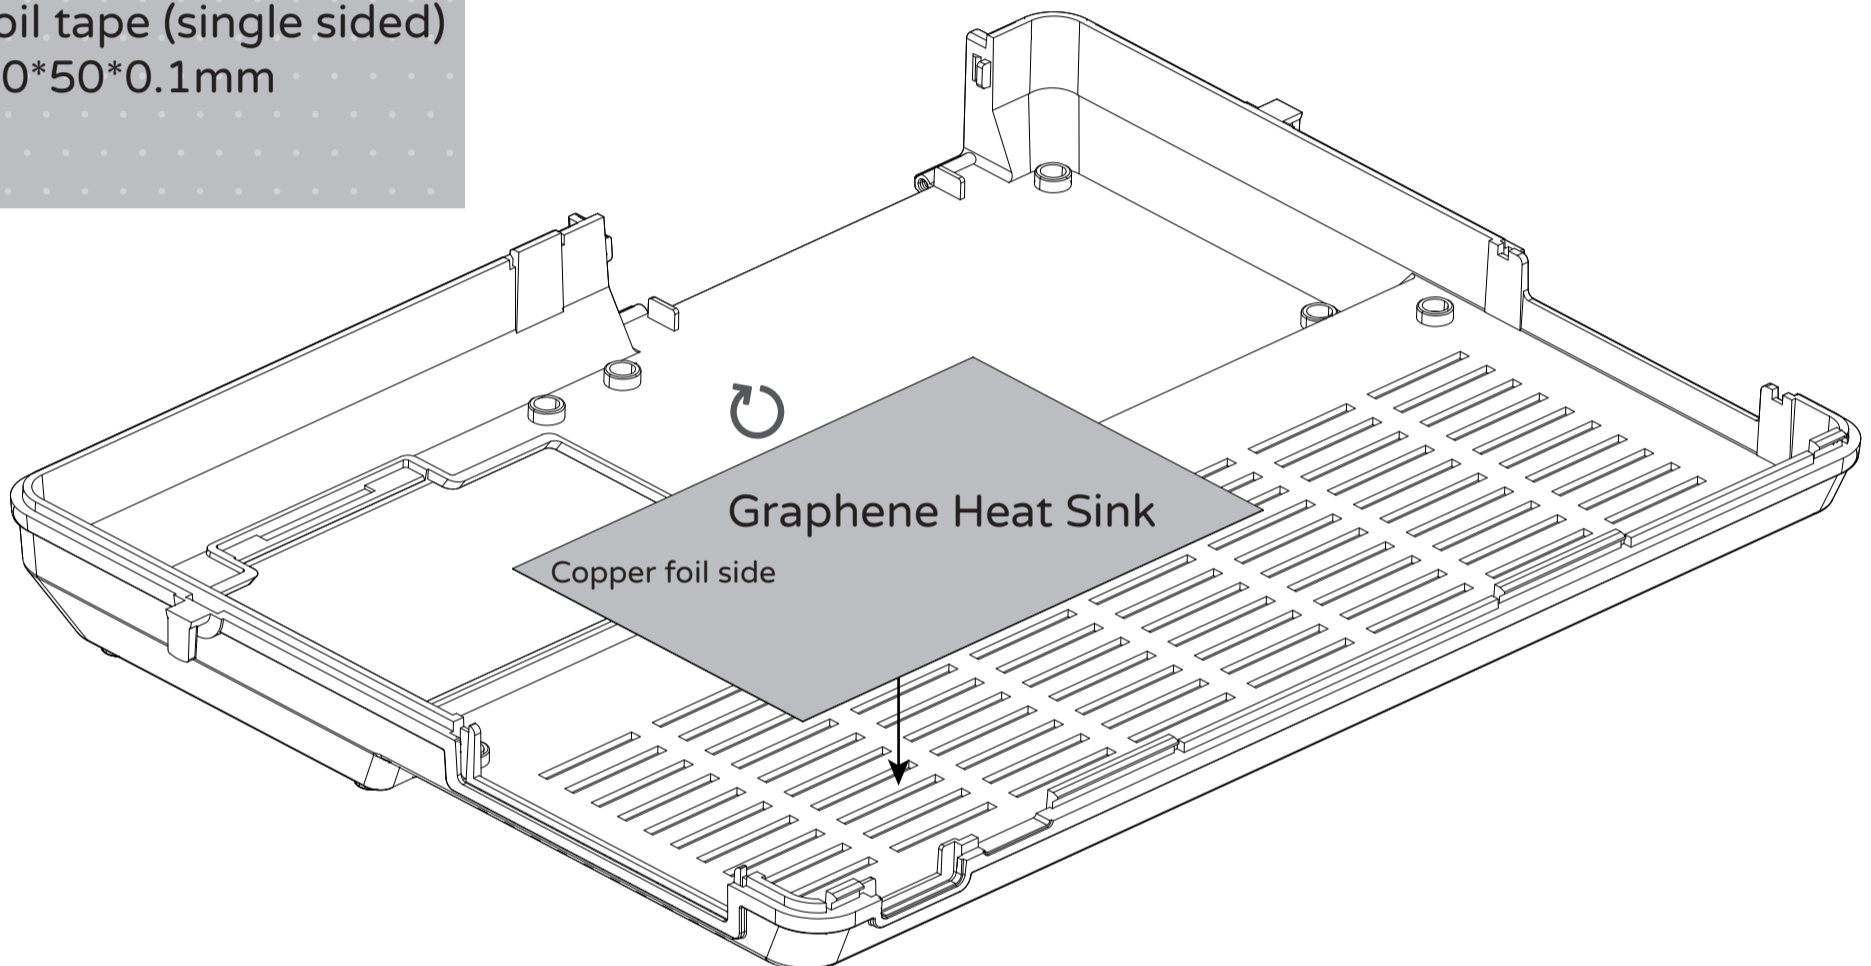

B

Copper foil tape (single sided)
90*50*0.1mm

Adhesive side

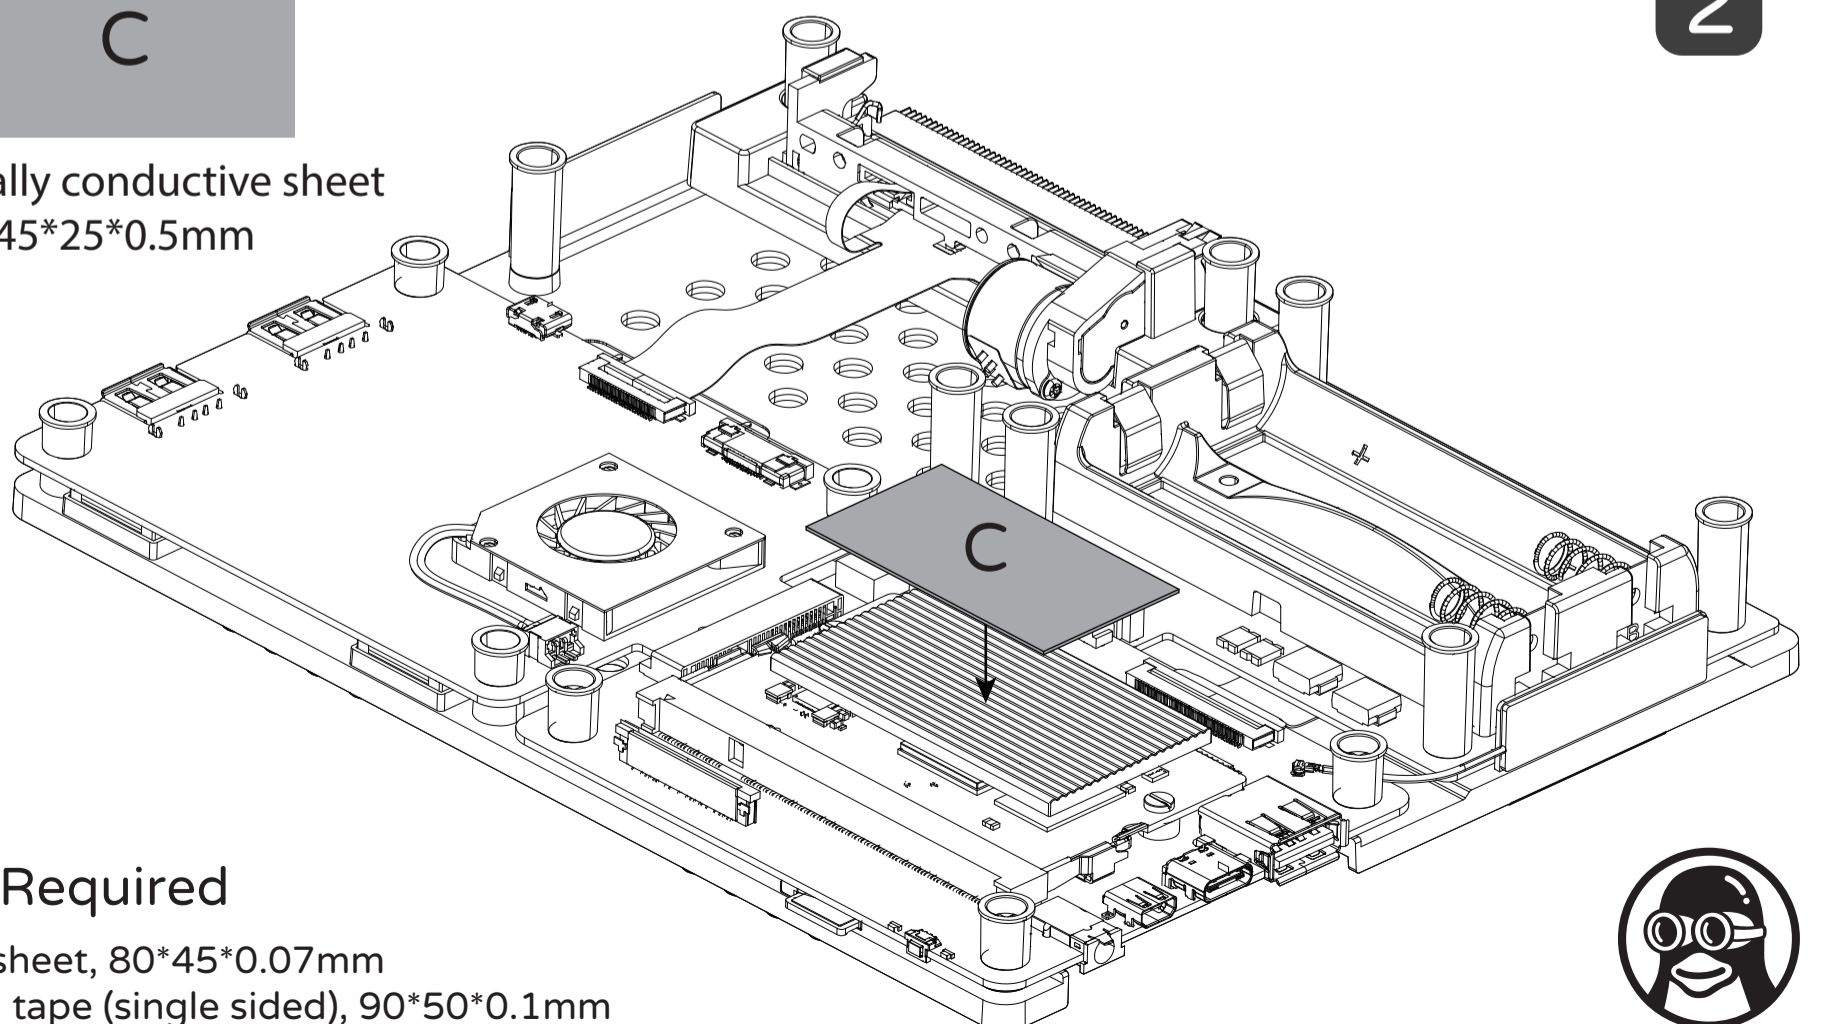

Graphene Heat Sink
90*50*0.2mm

C

Thermally conductive sheet
45*25*0.5mm

2

Materials Required

- A. Graphene sheet, 80*45*0.07mm
- B. Copper foil tape (single sided), 90*50*0.1mm
- C. Thermally conductive sheet, 45*25*0.5mm
